Introduction to the Reproducible Open Coding Kit (ROCK)

Gjalt-Jorn Ygram Peters & Szilvia Zörgő

IMPORTANT NOTICE

This document has now been superseded by the ROCK Book, and Open Access book that is available at <https://rockbook.org>. We leave it here for consistency of the record, but all content in this document has been (or will be) migrated to the ROCK book, as well as a lot more.

This document is the full text of "Introduction to the Reproducible Open Coding Kit (ROCK)", a manuscript that is based on a vignette that accompanies the rock R package.

Please cite this document as (note that the most current version of this manuscript is hosted at PsyArXiv at <https://psyarxiv.com/stcx9> - please check that URL before citing this article):

Peters, G.-J. Y., & Zörgő, S. (2019). Introduction to the Reproducible Open Coding Kit (ROCK). *PsyArXiv*. doi:[10.31234/osf.io/stcx9](https://doi.org/10.31234/osf.io/stcx9)

The documentation for the R functions presented in this manuscript, is available at the package's [pkgdown](https://r-packages.gitlab.io/rock) website at r-packages.gitlab.io/rock.
